20
LIVE SESSIONS

10
WEEKS

10
BUILT PROJECTS

THE AI ADVANTAGE COMES WITH A RISK.

Speed without verification can cost you marks.

AI SOUNDS CONFIDENT—EVEN WHEN IT IS WRONG.

Article numbers, committee recommendations, reports and facts can be generated inaccurately but presented as if they are certain.

ONE WRONG FACT CAN QUIETLY ENTER YOUR PREPARATION.

It moves from an AI response → into your notes → into your revision → and finally into your Mains answer.

MOST ASPIRANTS USE AI FOR BASIC SEARCHING.

Very few know how to verify outputs, trace sources or build a reliable workflow around UPSC preparation.

THE REAL POWER OF AI OFTEN REMAINS UNUSED.

You could be using it to generate **150 verified MCQs**, analyse **10 years of PYQs**, build revision systems and identify recurring themes.

ANSWER-WRITING FEEDBACK CAN BECOME FAR MORE SYSTEMATIC.

Instead of waiting days for feedback, AI can help evaluate multiple handwritten answers against a structured rubric—provided it is used correctly.

THE PROBLEM IS NOT AI. IT IS UNSTRUCTURED AI USAGE.

GENAI FOR BHARAT TEACHES YOU BOTH SIDES:

HOW TO USE AI POWERFULLY—AND HOW TO KNOW WHEN NOT TO TRUST IT.

Use AI
with clarity
and purpose

Verify every
fact before
you trust

Build systems
that reduce
errors

Focus on what
UPSC really
tests

Turn AI into a
long-term
advantage

THE WRITE-FIRST RULE

You write. AI evaluates. Never the other way round.

YOU WRITE FIRST.

Every answer begins with your own thinking, structure, articulation and handwriting.

AI DOESN'T WRITE YOUR ANSWERS.

Depending on AI to draft answers weakens two abilities Mains actually tests — your articulation and your writing under time pressure.

AI BECOMES YOUR EVALUATOR.

Your answers are evaluated against a structured rubric to identify gaps in content, structure, analysis and presentation.

FEEDBACK CAN BECOME A DAILY HABIT.

Instead of waiting for occasional evaluation, AI can help you review answers repeatedly — even **20 times a week**.

EVERY EXAM FACT MUST BE VERIFIED.

AI-generated information is never treated as the final authority.

FOLLOW THE SOURCE HIERARCHY.

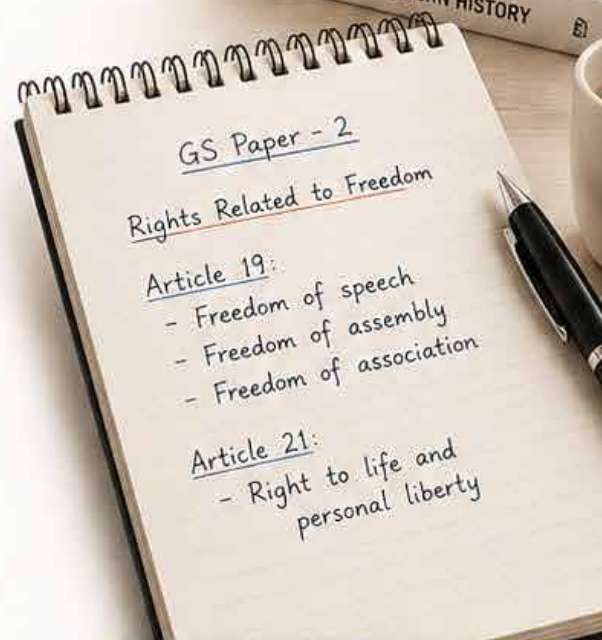

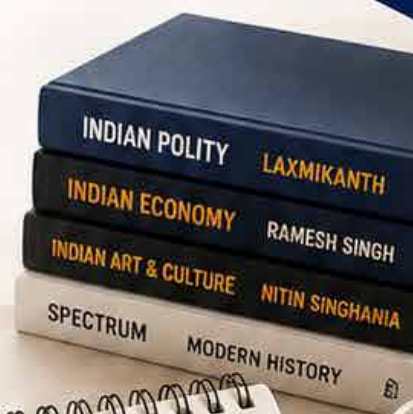

THE NON-NEGOTIABLE RULE:

Never AI alone. Always verify.

THE GOAL IS NOT TO LET AI THINK FOR YOU.

IT IS TO HELP YOU BECOME A BETTER THINKER, WRITER & ASPIRANT.

SOURCE HIERARCHY IS NON-NEGOTIABLE

**NEVER AI ALONE.
ALWAYS VERIFY.**

IS THIS COURSE RIGHT FOR YOU?

BUILT FOR YOU IF YOU ARE:

Preparing seriously for
UPSC CSE — first attempt or repeat

Working while preparing,
and **short on hours**

Hindi medium or English medium —
both fully supported

Already past Prelims and
want **Mains and interview leverage**

NOT FOR YOU IF YOU ARE:

Have no current study routine —
this course amplifies a routine,
it cannot replace one

Want **AI to write**
your answers for you

THIS COURSE WORKS BEST
WHEN YOU BRING THE DISCIPLINE.

WE BRING THE SYSTEM.
AI BECOMES YOUR FORCE MULTIPLIER.

YOUR TANGIBLE TAKEAWAYS

WHAT YOU WALK AWAY WITH

Ten built assets, not ten certificates of attendance.

01

GROUNDING STUDY NOTEBOOK

Built from NCERT, Laxmikanth, Spectrum, Shankar IAS, GC Leong, Ramesh Singh and ARC reports — with every citation verified.

02

DAILY CURRENT-AFFAIRS PIPELINE

PIB to The Hindu to Yojana, syllabus-tagged, running automatically.

03

150 VERIFIED MCQS + 10-YEAR PYQ HEATMAP

Generated from your own sources, quality-controlled, with a rejection log.

04

YOUR OWN ANSWER EVALUATOR

A custom AI tutor built on the UPSC rubric, with structured feedback on 20 handwritten answers.

05

OPTIONAL SUBJECT ENGINE

Corpus, PYQ heatmap and evaluated answers for your optional.

06

QUESTION-LEVEL ERROR LOG

Diagnoses why you lose marks, not just how many.

07

90-DAY REVISION CALENDAR + 200 FLASHCARDS

Generated from your own topic-decay data.

08

200-QUESTION DAF BANK + 3 RECORDED MOCKS

Interview preparation that starts early enough to matter.

09

25-TEMPLATE PROMPT LIBRARY

Reusable, tested and documented.

10

TWO WORKING AUTOMATIONS

Your daily digest and your revision reminders, on autopilot.

EACH ASSET IS PRACTICAL. EACH ASSET IS YOURS.
EACH ASSET MOVES YOUR PREPARATION FORWARD.

THE 10-WEEK ROADMAP

TWENTY SESSIONS OF ACTIONABLE BUILDING

✓ Every week ends with something that goes straight into your preparation.

WEEK 1 	(SESSIONS 1 & 2) The AI landscape and your aspirant stack. Prompt mastery — the seven pillars.		WHAT YOU BUILD: Your four platforms configured, and ten working prompts written on the syllabus you are studying this week.
WEEK 2 	(SESSIONS 3 & 4) Advanced prompting and your template library. Hallucination, verification and the fact standard.		WHAT YOU BUILD: A 25-template prompt library, and your own verification protocol — the session everything later depends on.
WEEK 3 	(SESSIONS 5 & 6) Grounded research and your own AI tutors. Your Study OS from the standard books.		WHAT YOU BUILD: Four custom AI tutors, and a grounded notebook across six or more standard sources with every citation verified.
WEEK 4 	(SESSIONS 7 & 8) The current-affairs engine — PIB, newspapers, Yojana. Automation with n8n.		WHAT YOU BUILD: A daily syllabus-tagged digest running automatically, and one month's compilation built for revision.
WEEK 5 	(SESSIONS 9 & 10) Question generation and PYQ intelligence. Elimination technique, CSAT and attempt strategy.		WHAT YOU BUILD: 150 verified MCQs, a ten-year PYQ heatmap, and a written attempt rule backed by your own accuracy data.
WEEK 6 	(SESSIONS 11 & 12) Answer writing and rubric-based feedback. Essay, GS-IV ethics and AI in governance.		WHAT YOU BUILD: Your own answer evaluator, twenty evaluated handwritten answers, three essays and five GS-IV case studies.
WEEK 7 	(SESSIONS 13 & 14) Optional Subject Accelerator. Mock analytics, error logs and revision.		WHAT YOU BUILD: An optional corpus and optional PYQ heatmap, plus a question-level error log that shows why you lose marks.
WEEK 8 	(SESSIONS 15 & 16) Personality test, DAF prep and your 12-month plan. Visuals — diagrams, mind maps, timelines.		WHAT YOU BUILD: A 200-question DAF bank, three recorded mock rounds, and revision diagrams built from your own notes.
WEEK 9 	(SESSIONS 17 & 18) Voice, audio and professional decks. Written content and localisation.		WHAT YOU BUILD: A ten-file revision audio library for your commute, and your showcase deck.
WEEK 10 	(SESSIONS 19 & 20) Capstone build lab. Showcase and certification.		WHAT YOU BUILD: Everything integrated into one AI Operating System, presented and defended, plus your 90-day plan.

YOU DON'T JUST LEARN AI.
YOU BUILD WITH AI. YOU PREPARE SMARTER. YOU STAY AHEAD.

WHAT SETS THIS PROGRAM APART

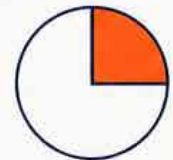

THE GENAI FOR BHARAT DIFFERENCE

01 THE OPTIONAL SUBJECT IS COVERED.

500 marks — more than any single GS paper, roughly a quarter of your final merit. Almost no AI course touches it.

We teach a subject-agnostic method that works for PSIR, Sociology, Anthropology, Geography, History, Philosophy or a technical optional.

~25%
OF FINAL MERIT

02 VERIFICATION IS A DISCIPLINE, NOT A DISCLAIMER.

An entire session on how models fabricate, plus a rule that every exam fact traces to an official source.

₹0

MANDATORY
TOOL SPEND

03 ZERO RUPEES IN TOOL SUBSCRIPTIONS.

Every graded deliverable is achievable on free tiers. Paid tools are demonstrated by the facilitator, never required.

अ

04 BHARAT TRACK FOR HINDI MEDIUM.

Hindi source corpora, bilingual notes, Devanagari answer practice, Hindi optional terminology.

05 YOU BUILD IT, YOU KEEP IT.

The system keeps working long after the last session.

NOT JUST AN AI COURSE.

A SYSTEM YOU BUILD. A PLAN YOU OWN. A RESULT YOU DESERVE.

EVERYTHING YOU NEED TO KNOW

The format, tools and answers before you begin.

FREQUENTLY ASKED QUESTIONS

Will AI write my answers?

No. You write first. AI evaluates your work against a structured rubric. The objective is to strengthen your articulation—not outsource it.

Do I need paid AI subscriptions?

No. Mandatory learner tool spend is ₹0.

Is using AI for UPSC preparation legitimate?

Yes. AI is being used as a learning, research, evaluation and productivity tool. Verification and source discipline remain central throughout the programme.

Which Optional Subjects are supported?

All Optionals. You learn a subject-agnostic method and apply it to your own Optional.

I've never used AI before. Can I join?

Absolutely. The first four sessions assume zero prior AI experience.

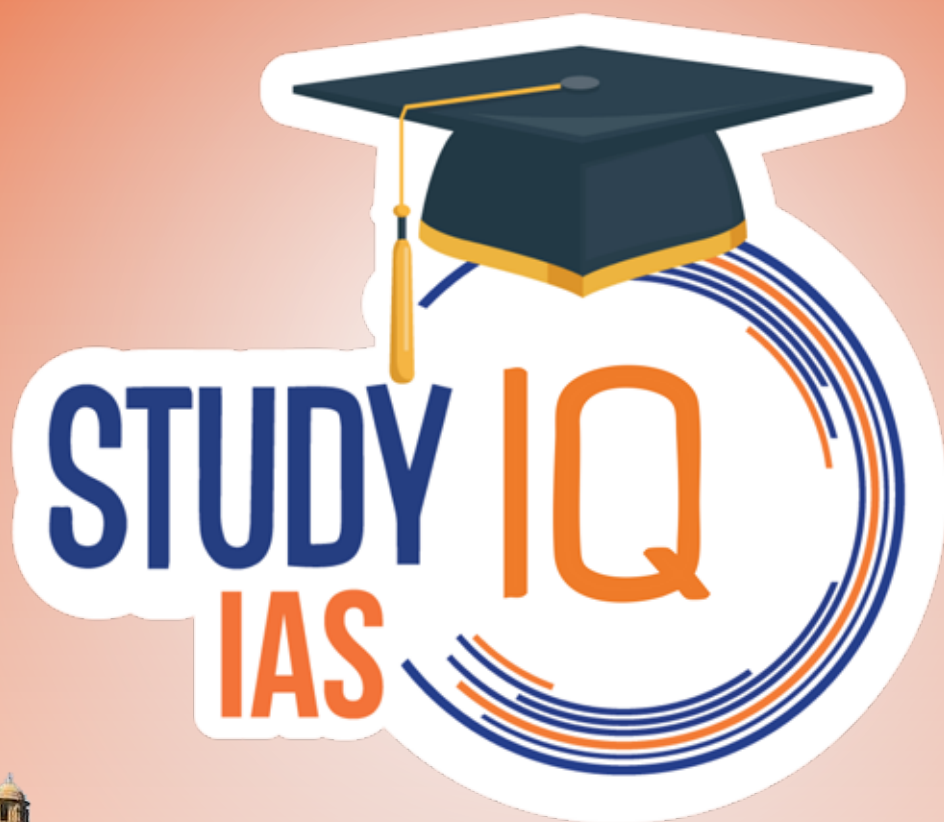

I'm already mid-cycle. Can I manage the programme?

Yes. Every week is designed to produce something that can go directly into your current preparation.

LEARN SMARTER. PREPARE DEEPER. PERFORM BETTER.
