Here are the common challenges faced by aspirants:

Scattered Preparation

Studying from multiple books, YouTube channels, and notes but still feeling directionless.

Lack of Clear Roadmap

Not knowing what to study, when to study, and how to move from basics to advanced level.

Information Overload

Endless resources and strategies create confusion instead of clarity.

Inconsistent Preparation

Starting with high motivation but struggling to maintain discipline over months.

Weak Conceptual Foundation

Skipping basics leads to poor understanding and difficulty in advanced topics.

No Mentorship or Guidance

Preparing alone without someone to guide, correct mistakes, or track progress.

Answer Writing Struggle

Knowing the content but unable to present it effectively in the Mains exam.

Poor Revision Strategy

Studied a lot, but unable to retain and revise at the right time.

Test Anxiety & Low Confidence

Fear of mock tests and lack of exam temperament under pressure.

Disconnected Preparation
